MILLS INSTITUTE GIVES DIPLOMAS TO 11 GRADUATES

High Honors Awarded Chinese Student—Perley L. Horne Speaks to the Class.

Students of Mills Institute to the number of 11, who are leaving the institute this year, were awarded diplomas yesterday afternoon at the commencement exercises held at the school. That Mills has grown during the past year is seen from the fact that in 1913 there were but two graduates. Seven of those students who received diplomas yesterday shortly will leave Honolulu to enter mainland colleges and universities.

The exercises were well attended, prominent among those present being Governor Pinkham, Dr. Doremus Seuder, vice-president of the board of directors, who presided in the absence of F. B. Damon, the president. Hachiro Aoki, acting consul for Japan; Tey-An Woo, acting consul for China; Rev. O. H. Gulick, senior member of the board of directors; Dr. J. W. Wadman, superintendent of the Anti-Saloon league, and Dr. Syngman Rhee, principal of the Korean boarding school.

The highest honors of the school year were conferred upon Kong Sing Loy, a Chinese student, who was the only graduate speaker at the exercises. The topic of his address was, "The Islands of the Sea," and was remarkably well handled. Following his oration, he delivered the valedictory. The address to the graduating class was delivered by Perley L. Horne, retiring principal of the Kamehameha school, who spoke straight from the shoulder and told the students what is necessary in this life to bring success.

The commencement exercises of the grammar grades at Kawaiahae Seminary and Mills school also were held yesterday afternoon. Kawaiahae graduated 16 girls, six of whom will attend the normal school, and 20 Mills boys received certificates.

JAPANESE WOULD END TENSION

WASHINGTON.—Dr. Shoshiko Sato, who has been in America lecturing under the Carnegie endowment fund and who was today the guest of the Japanese ambassador, in an interview declared that when he returned to his country he will tell the emperor that his personal opinion is that the only way to settle the California land question is for the United States to grant citizenship to the Japanese now in California, and that he will advise that no more Japanese immigrants be allowed in the country.

"I have made a careful study of the California situation," Sato said, "and in my recommendations I will state that in my opinion there is but one way to settle the differences between the United States and Japan over the California question, and that is by granting citizenship to the Japanese now holding land in California.

"When this is done Japan will have no further trouble with the United States. There are at present about 100,000 Japanese in the United States, and more than half that number are qualified to become citizens of this country.

"The Japanese in California are now in a bad way and the people of California do not care what becomes of them. By giving them citizenship and a vote the tension would be relieved. Japan has nothing to gain by going to war with the United States and I do not think that a conflict between the two nations will ever occur."

BIRTHS

HOWLAND—In Honolulu, to Mr. and Mrs. L. C. Howland, June 7, 1914, a daughter.

Mr. John Ross, manager of Hakalau Plantation, should easily be the favorite candidate for supervisor to fill the place of Kealoha, locked up and resigned (but not resigned to being behind bars). Had North Hilo been allowed to elect separately from Hilo, doubtless Ross would have been elected at the last election. Gov. Pinkham will fill the vacancy, and we hope he will give us the best man and leave peanut politics out.—Kohala Midget.

'ALIAS JIMMY VALENTINE' NEXT

The Players' all-star company will give tonight the last presentation of the successful English divorce play, "A Butterfly on the Wheel." The title is most appropriate, describing as it does how an innocent, but foolish young society matron, through her fondness for admiration and social success, falls into a cunningly devised trap, from which she escapes only after many tears, and a terrible experience in the divorce division of the high court of justice. The play is well cast, every member of the company finding a congenial part. The burden of the work falls upon the heroine, the Honorable Mrs. George Admaston, the silly young wife of the Right Honorable George Admaston, M. P., an ambitious and energetic statesman, whose work in Parliament so absorbs his time and effort that his wife (Peggy) feels neglected and lonesome, "lying opportunity for the leisurely man of fashion. Roderick Collingwood, to pay attention to her which seriously compromises her in the eyes of the world. Miss Florence Oakley finds in the part of Mrs. Admaston opportunity for versatile acting. George Webb makes an ardent wooer in the first act, and is almost Machiavellian in his portrayal of the lover who would selfishly have brought about the destruction of his friend's domestic happiness. Guy Hiner is calm and dignified as the ambitious statesman.

"Alias Jimmy Valentine." Paul Armstrong's big success, will be staged, commencing tomorrow evening, with Mr. Webb in the title role.

"Shall I bring you a rum omelet, sir?" "I can't afford eggs these days. You can leave 'em out."

"I indited a poem to her that said she looked like an angel." "Made a big hit, I suppose." "No. The fellow who printed it printed 'angle'."
